

The logo for Nozstock the Hidden Valley Green Rider. It features the text 'Nozstock the Hidden Valley' in a black, handwritten-style font. Above the 'o' in 'Nozstock' is a stylized unicorn head with a rainbow-colored mane. Below this, the words 'GREEN RIDER' are written in a bold, blue, sans-serif font, with each letter separated by a small gap.

Nozstock *the* Hidden Valley GREEN RIDER

- 1) Only request perishable food and drink that you plan to consume. If there are any edible leftovers, please notify a crew member so they can be collected and distributed to the crew or donated to local shelter organisations or food banks.
- 2) We'll only chill items that need to be chilled, so please keep your requests to a minimum if possible. Refrigerators are energy-intensive, so consider bringing a cooler or requesting an ice bucket.
- 3) Bring your own refillable water bottles and **'GET READY TO REFILL'**
- 4) Consider making a donation to the **MARINE CONSERVATION SOCIETY** supporting our theme, '20,000 Acres Under the Sea'. We can collect it on your behalf or you can donate directly.
- 5) Please ensure that all production and runner vehicles follow a 'no idling' policy and turn off their motors when at rest. Use our equipment when possible to reduce your own and utilise **PUBLIC TRANSPORT SERVICES** where possible.
- 6) Onsite recycling facilities for paper, cans, plastic, and glass will be provided. Please work with us to ensure waste is sorted appropriately.
- 7) If you're booking accommodation, choose a hotel as close to the venue as possible to minimise transportation. Give preference to hotels with environmental credentials, such as the Green Key eco-label or the EU Ecolabel for Tourist Accommodations.
- 8) Support our **GREEN INITIATIVES AND POLICY** by sharing it through your social media channels and event promotion. Your influence can be a helpful resource for encouraging good behavior from attendees. Don't forget to tag us!
- 9) Please avoid single-use plastic, including water bottles, cups, straws, stirrers, bags, cutlery, and condiment sachets. We'll provide reusable or biodegradable plates, cutlery, and cups. **In 2023, we'll measure the use of single-use plastics in all artist riders for our Environmental Impact Report.**
- 10) Where using private transportation, consider offsetting emissions using **ECOLIBRIUM** which provides a simple travel calculator. Please email proof of offset to **emma@nozstock.com** to improve your chances at The Green Artist Award. **In 2023, we will measure all emissions from artist travel for our Environmental Impact Report.**
